## UTM Faculty of Chemical and Energy Engineering Won USD100,000 IDB Prize

The Faculty of Chemical and Energy Engineering of Universiti Teknologi Malaysia (UTM-FCEE) has recently been announced as the winner of USD 100,000 Islamic Development Bank (IDB) Prize of Excellence in Science and Technology. UTM-FCEE was cited as an "Institution having achieved outstanding contribution to a given scientific discipline".

As one of the prominent engineering schools in Asia, UTM-FCEE features some world class chemical engineering, petroleum engineering and energy engineering teaching and learning, as well as R & D programmes.

In 2016, UTM Chemical Engineering program was listed i...
