

**Professor Dr Zainuddin Abdul Manan**

21 April · 🌐

I am proud to share that the Dean of UTM Faculty of Education, Prof Baharuddin bin Aris was invited as a keynote speaker at Learning & Teaching in Computing & Engineering (LaTiCE) 2017. The conference was co-organized by IEEE, UpCERG (Uppsala University, Sweden) & Royal Melbourne Institute of Technology, Australia) and was held in The University of Hong Kong from 21-23 April 2017.

The paper reviewing process by the Programme Committee has always been very strict and these full papers will be published in IEEE Xplore. The good news is that there are 4 lecturers and 4 PhD students from UTM who managed to get through the strict reviewing process and be given the opportunity to present in this event.

Besides attending the conference, an initiative was taken to create and sustain network with The University of Hong Kong Faculty of Education and The Hong Kong Institute of Education. The University of Hong Kong is ranked 27 in the Engineering & Technology discipline (QS WUR). In the Education discipline, The University of Hong Kong is ranked 7 (QS WUR) and The Hong Kong Institute of Education is ranked 13 (QS WUR).
