The UTM Foundation Programme is an academic programme offered by UTM which offers students an alternative choice of pre-university education, other than matriculation, the Malaysian Higher School Certificate (STPM), and other foundation programmes recognized by the Malaysian government.

It provides students with the basic knowledge required for Engineering, Science and Social Sciences' Degree programmes that will prepare them for their next education pathway in Bachelor's degree at UTM-IDP program in UTM.

The duration of this programme is one year which is in a full time mode. The students' academic load is spread over a course of three semesters (52 weeks) with several courses being delivered and assessed in each Semester.

There are 3 intakes per year for UTM Foundation: February, April and September.
