MINISTER FOREWORD

Bismillahirrahmanirrahim
Assalamualaikum wbt dan Selamat Sejahtera.

Saya ingin mengucapkan setinggi-tinggi tahniah kepada Perbadanan Harta Intelek Malaysia (MyIPO) yang berjaya mengekalkan pencapaian yang baik bagi tahun 2015, disusuli dengan inisiatif-inisiatif baharu dan berimpak tinggi dalam usaha mentransformasikan landskap harta intelek untuk menjadi lebih dinamik, inovatif dan kompetitif.

Saya berbangga dengan pembangunan hala tuju *Roadmap for IP Monetisation* yang telah dilancarkan oleh Perdana Menteri Malaysia, Yang Amat Berhormat Dato' Sri Mohd Najib Bin Tun Abdul Razak pada 10 September 2015 bagi meneruskan kelangsungan ekosistem pembiayaan harta intelek di negara kita. Pelan ini telah menggariskan tiga teras utama iaitu kaedah untuk menjadikan harta intelek sebagai aset kewangan, menjana pulangan komersial melalui harta intelek serta menambah baik *IP Marketplace* sebagai hab perdagangan harta intelek.

Selain itu, inisiatif pembangunan *Technology and Innovation Support Centers (TISCs)* juga telah menyaksikan kerjasama strategik yang lebih kukuh antara MyIPO dan *World Intellectual Property Organization (WIPO)* melalui *Service-Level Agreement* yang telah ditandatangani pada Oktober 2015. Inisiatif ini mendapat sambutan yang baik dengan penyertaan tiga universiti awam iaitu Universiti Teknologi Mara, Universiti Malaysia Pahang, Universiti Malaysia Sabah serta institut penyelidikan iaitu Institut Penyelidikan Perhutanan Malaysia (FRIM) sebagai *Host Institutions.*

Penubuhan TISCs ini dilihat dapat mengukuhkan hubungan antara para penyelidik, universiti, pusat penyelidikan tempatan dan masyarakat umum melalui perkongsian maklumat terkini berkenaan projek penyelidikan yang sedang atau telah dijalankan. Inisiatif juga bertujuan supaya tidak berlaku pertindihan penyelidikan dan seterusnya menggalakkan penghasilan produk-produk inovasi.

Kerajaan turut prihatin dalam menangani isu berkaitan kesihatan awam khususnya untuk mengguna pakai peruntukan lesen wajib secara berkesan dalam sektor farmaseutikal. Penerimaan *Protocol Amending the TRIPs Agreement* pada

Assalamualaikum wbt and Selamat Sejahtera.

My heartiest congratulations to Intellectual Property Corporation of Malaysia (MyIPO) for yet another year of sustained success in the wake of new initiatives that had high impact in efforts to transform the local intellectual property landscape into a more dynamic, innovative and competitive one.

I am proud of the development of the Roadmap for IP Monetisation which was launched by The Honorable Prime Minister Dato' Sri Mohd Najib Bin Tun Hj Abdul Razak, on 10 September 2015, to ensure the continuation of the intellectual property financing ecosystem in our country. The Roadmap outlines three main pillars, namely, to transform intellectual property into financial assets, to generate commercial returns through intellectual property and enhance the IP marketplace as a trading hub for intellectual property.

In addition, the initiative to develop the Technology and Innovation Support Centres (TISCs) has helped strengthen strategic cooperation between MyIPO and World Intellectual Property Organization (WIPO) and this has resulted in the signing of the Service-Level Agreement in October 2015. This initiative was very well received with the participation of three public universities, namely, Universiti Teknologi Mara, Universiti Malaysia Pahang and Universiti Malaysia Sabah as well as Forest Research Institute of Malaysia (FRIM) as Host Institutions.

The establishment of TISCs is seen as a means of fostering relationships among local researchers, universities, research institutes and community at large through the sharing of latest information from ongoing and previously conducted research projects. It will also help to avoid duplication in research and also encourage production of innovative products.

At the same time, the Government is also concerned about public health issues, particularly with regards to the adoption of the compulsory license provisions in the pharmaceutical sector. The acceptance of the Protocol Amending the

10 Disember 2015 membolehkan Kerajaan menggunakan kebolehsuaian di bawah Deklarasi Doha. Antara kebolehsuaian protokol ini adalah mengimport produk farmaseutikal berpaten semasa negara dalam keadaan darurat atau keterdesakan melampau dan mengilang serta mengeksport apa-apa produk farmaseutikal berkaitan ke negara-negara yang tidak mempunyai kemampuan mencukupi atau tiada kemampuan untuk mengilang.

TRIPs Agreement on 10 December 2015 allows the Government to take advantage of flexibility under Doha Declaration. This includes importing and manufacturing patented pharmaceutical products during national emergency, as well as exporting such products to countries that do not have sufficient or no manufacturing capability to do so to safeguard access to medicines.

Kerajaan akan memastikan Malaysia terus kekal berdaya saing ke arah mencapai status negara berpendapatan tinggi dengan memperkasakan inovasi dan menumpukan kepada kesejahteraan rakyat. Saya mengucapkan syabas kepada MyIPO atas penganjuran Anugerah Harta Intelek Negara 2015 yang telah memperkenalkan satu lagi kategori baharu iaitu Pereka Cipta Harta Intelek. Di bawah kategori ini, pelajar institut kemahiran atau setaraf berpeluang untuk mengetengahkan produk inovasi dan reka cipta mereka yang berpotensi untuk dipaten dan dikomersilkan.

The Government strives to ensure that Malaysia remain competitive by empowering innovations and focusing on the wellbeing of the people towards achieving high income nation. My congratulations to MyIPO for organising the National Intellectual Property Awards 2015 which introduced a new category of Intellectual Property Inventor. Under this category, students from skill-training or equivalent institutes have the opportunity to introduce innovative products or inventions with the potential to be patented and commercialised.

Saya percaya, dengan pelaksanaan inisiatif-inisiatif yang berterusan ini serta kerjasama yang lebih kukuh antara MyIPO, industri dan masyarakat mampu memastikan aspirasi Malaysia menjadi negara maju dapat dicapai melalui pemerkasaan harta intelek

I believe that with the continuous implementation of those initiatives as well as the effective cooperation between MyIPO, industries and the community at large, IP empowerment will be a factor in achieving Malaysia's aspiration towards becoming a developed nation

Sekian, terima kasih.

Thank you.

PERUTUSAN
KETUA PENGARAH
DIRECTOR GENERAL'S FOREWORD

Bismillahirrahmanirrahim
Assalamualaikum wbt dan Selamat Sejahtera.

Pendekatan MyIPO pada tahun 2015 lebih memfokuskan kepada program kelangsungan ekosistem pembiayaan harta intelek dan aktiviti pengeksploitasian hak harta intelek di samping penambahbaikan sistem penyampaian perkhidmatan sedia ada.

Persidangan *Global IP Valuation Conference (GIPVC)* yang merupakan platform penting bertujuan membentang dan membincangkan praktis terbaik bagi mengoptimum dan mengeksploitasi hak harta intelek telah berjaya dianjurkan buat kali kedua pada 9 hingga 10 Jun 2015 bertemakan "Ideas2Value: Accelerate ASEAN". GIPVC 2015 turut memberi fokus kepada golongan belia terutamanya Generasi Y melalui slot *Youth Un-Conference* yang diwakili oleh 'community leaders' dari 12 buah negara-negara ASEAN.

Dalam memainkan peranan membantu dan menyokong golongan usahawan tempatan, MyIPO melalui program *1 ASEAN Entrepreneurship Summit* telah diberikan tanggungjawab untuk mengelolakan Program *IP Connect* yang merangkumi *IP Talk*, *IP Clinic* dan *IP Filing*. Melalui program-program ini, MyIPO menawarkan informasi harta intelek, khidmat nasihat daripada perunding-perunding harta intelek secara eksklusif, dan menawarkan dana kepada para peserta yang berkelayakkan untuk memfailkan permohonan pendaftaran cap dagangan, reka bentuk perindustrian dan hakcipta.

Sementara itu, MyIPO juga memperkemaskan infrastruktur teknologi maklumat melalui pelaksanaan *Security Posture Assesstment (SPA)* bagi mengenal pasti kelemahan-kelemahan sistem dan keselamatan ICT yang menimbulkan risiko kepada infrastruktur IT MyIPO. Ujian-ujian penembusan dan semakan yang dilaksanakan oleh projek SPA ini seterusnya dapat menambahbaik tahap keselamatan ICT, aplikasi web, infrastruktur sistem rangkaian, perkakasan dan pelayan-pelayan sistem MyIPO.

Selain daripada semua inisiatif di atas, jentera MyIPO juga telah diperkukuhkan dengan pengurusan sumber manusia yang lebih efektif. Salah satu inisiatif yang telah dilaksanakan ialah menandatangani Ikrar Integriti Korporat pada

Bismillahirrahmanirrahim
Assalamualaikum wbt and Selamat Sejahtera.

In 2015, MyIPO's focus was on the continuation of the intellectual property financing ecosystems programme, activities which exploited intellectual property rights and improving the existing service delivery system.

The Global IP Valuation Conference (GIPVC), which serves as an important platform to present and discuss best practices to optimise and exploit intellectual property rights, was successfully organised for the second time on 9 - 10 June 2015. GIPVC, which had "Ideas2Value: Accelerate ASEAN" as its theme, also gave focus to the Gen Y group with a Youth Un-Conference represented by community leaders from 12 ASEAN countries.

In playing its role in assisting and supporting local entrepreneurs, MyIPO through 1 ASEAN Entrepreneurship Summit Programme was tasked to organise the IP Connect Programme which include IP Talk, IP Clinic and IP Filing. MyIPO offered information on intellectual property and exclusives advisory services from consultants through this programme as well as providing funds to qualified participants to register their trademarks, industrial designs and copyrights.

MyIPO also streamlined its information technology infrastructure through the implementation of Security Posture Assessment (SPA) to identify weaknesses in the system and ICT security which exposed the MyIPO IT infrastructure to risks. Penetration testing performed by SPA Project helped to improve MyIPO's level of security for ICT, web applications, network infrastructure systems, hardware and servers.

In addition to the initiatives mentioned, MyIPO's workforce has empowered through an effective human resource management. One of the initiatives being implemented was the signing of the Corporate Integrity Pledge on 20 November

20 November 2015. Ini membuktikan komitmen MyIPO untuk meneruskan usaha membina warga kerja dan organisasi yang memiliki nilai sosial, moral, etika, kerohanian, dan integriti yang tinggi.

Pada masa yang sama, jalinan kerjasama sedia ada antara MyIPO dan media sebagai rakan kongsi strategik turut membantu dalam usaha menyebarluaskan informasi berkenaan program-program MyIPO. Media memainkan peranan besar dalam membentuk pola pemikiran masyarakat seterusnya mengambil tindakan proaktif bagi melindungi hak harta intelek mereka. Keakraban ini diperkukuhkan melalui aktiviti-aktiviti santai seperti program MyIPO Media Sehati Sejiwa yang diadakan di Pahang dan *MyIPO Chillax Session* yang diadakan di Kuala Lumpur.

Adalah menjadi harapan saya agar seluruh warga kerja MyIPO, *stakeholders* dan rakan media akan terus memberikan sokongan penuh terhadap program-program yang dilaksanakan dalam usaha menjayakan agenda pemerkasaan bidang harta intelek negara.

Sekian, terima kasih.

2015, an indication of MyIPO's commitment to continue its efforts to instill a high level of integrity with social values, morals, ethics, spirituality among staff and organisation itself.

Meanwhile, the existing cooperation between MyIPO and media as a strategic partner has helped in disseminating information on MyIPO's programmes. Media plays a major role in influencing society to take proactive action to protect their intellectual property rights. The camaraderie between MyIPO and media was further strengthened by leisure activities such as MyIPO Media Sehati Sejiwa programme in Pahang and MyIPO Chillax Session in Kuala Lumpur.

It is my hope that MyIPO's staff, stakeholders and the media will continue to give their full support in implementing the programmes towards the success and empowerment of the nation's intellectual property agenda.

IP MONETISATION ROADMAP

STRATEGIC THRUSTS

Thrust 1:
Transform IP Into Financial Assets

Develop initiatives and specific programmes to boost confidence and acceptance of financiers and investors in recognising IP right as an asset of value. Encourage financial institutions, venture capital and investors to venture into the valuation of IP right, via the IP Valuation Model which provides the minimum requirements in valuing such IP right, and thereafter utilise such right as part of the asset collateralisation

Thrust 2:
Mobilising IP Assets

Leverage and unlock the potential from Ip by taking a more concerted and systematic approach in identifying these assets within the public and private sectors. Encourage these IP assets to be strategically mobilised to generate commercial returns. Existing initiatives and infrastructure namely, the availability of local IP valuers, the IP marketplace and numerous capacity and capability programmes can be expanded upon

Thrust 3:
Enchance IP Marketplace to be a vibrant trading hub for IP

The Goverment is cognisant of the need for a platform to allow IP gems to shine, and have adopted the concept of an IP Marketplace which is positioned as an initiative to build a web platform where Malaysian IP are made available for sale or licensing can be listed and promoted to a wide audience not just domestically but internationally. The IP Marketplace that has been initiated will be futher developed to ensure a more transparent, high transaction and dynamic marketplace via a more coherent public-private collaboration, for IP right which in turn will encourage better incentives to create, use, trade, transfer and assign IP assets.

Pelan Halatuju *IP Monetisation* dapat disediakan dan dilancar dengan rasminya pada 10 September 2015 sempena Majlis Anugerah Harta Intelek Negara oleh YAB Perdana Menteri Malaysia, Dato Seri Mohd Najib Tun Abdul Razak.

IP Monetisation Roadmap pada asasnya bertujuan untuk menangani harapan, keinginan, isu-isu utama dan masalah yang telah ditimbulkan oleh pelbagai pihak yang berkepentingan mengenai bagaimana untuk meningkatkan dan mempercepatkan aktiviti pulangan wang masuk (monetisation) berkaitan dengan harta intelek dan menilai kadar kejayaan aktiviti harta intelek di Malaysia. Pelan hala tuju ini dilaksanakan dengan merujuk kepada tiga teras utama iaitu bidang *IP Valuation, IP Financing* and *IP Marketplace.*

The IP Monetisation Roadmap was launched on 10 September 2015 by His Excellency the Prime Minister Dato Seri Mohd Najib Tun Abdul Razak in conjunction with the National Intellectual Property Award.

The IP Monetisation Roadmap basically aims at handling the expectations, desires, key issues and concerns which had been raised by various stakeholders on how to improve and speed up intellectual property monetization and to evaluate the success of intellectual property activities. The Roadmap has three pillars: IP Valuation, IP Financing and IP Marketplace.

Pengkomersilan dan *monetisation* Harta Intelek adalah persamaan dan kejayaan yang penting untuk teras keseluruhannya bagi meletakkan Malaysia sebagai negara berasaskan pengetahuan dan pulangan inovasi melalui Program Transformasi Ekonomi Kerajaan yang boleh dikomersil dan dilabur serta penyebaran dan pemindahan pengetahuan yang dinyatakan sebagai pulangan ke atas pelaburan bagi sumber dan dana yang dibelanjakan dalam melaksanakan program-program transformasi.

The commercialisation and monetisation of intellectual property is the equation and success is essential to the overall thrust to place Malaysia as a knowledge-based country and that returns from innovations through the Government Economic Transformation Program can be commercialized and invested, and that the dissemination and transfer of knowledge is expressed as a return from investment on resources and funds spent in implementing transformation programs.

Pelbagai kajian dan laporan antarabangsa telah menunjukkan bukti bahawa Harta Intelek adalah merupakan satu komponen yang penting dalam menentukan pertumbuhan ekonomi dan kekuatan sesebuah negara dengan memberi kesan kepada KDNK negara, menambahkan peluang pekerjaan dan meningkatkan pendapatan serta meningkatkan nilai firma. Ia juga selaras dengan aspirasi negara untuk menjadikan Malaysia sebagai negara berpendapatan tinggi menjelang tahun 2020.

Various studies and international reports have proven that intellectual property is a key component of economic growth and strength of a country as it has impact on national GDP, job opportunites, income growth as well as on increasing the value of business enterprises. Such benefits are also in line with Malaysia's aspiration to be a high-income nation by 2020.
