Meet Dr. Jake. One of our CEO@Faculty Fellows mentored by Dato' Izzadin Idris (CEO of UEM Group)

He is an expert in liquid crystal (geeky stuff) but secretly, he is an architect at heart. His love for beautifully structured buildings deepens when UEM exposed him with knowledge on smart town planning and construction during the 6 month attachment.

On his spare time Jake likes to go hiking and this weekend he will run his 5th marathon!

Are you inspired? You can be like Jake too by applying for Cycle 2 of CEO@Faculty 2 Fellow.

Ps: oh did we forget to mention that Jake is still single? 😊
