MALAYSIA

## PRA KATA

---

Jabatan Perkhidmatan Kuarantin dan Pemeriksaan Malaysia (MAQIS) bertanggungjawab untuk menyediakan perkhidmatan bersepadu yang berkaitan dengan kuarantin, pemeriksaan, dan penguatkuasaan di pintu masuk, stesen kuarantin, premis kuarantin dan pemerakuan bagi import dan eksport komoditi pertanian. Oleh itu, **Indikator Import dan Eksport bagi Komoditi Pertanian 2019** diperkenalkan untuk memberikan maklumat secara menyeluruh kepada pengimport dan pengeksport di Malaysia mengenai protokol import dan eksport, di samping mematuhi undang-undang dan peraturan yang telah ditetapkan. Selain itu, buku panduan ini juga boleh dijadikan sebagai rujukan kepada semua pengimport, pengeksport dan juga kepada pegawai Jabatan Kerajaan dan Agensi yang terlibat dalam perdagangan import dan eksport.

Maklumat yang disediakan dalam buku panduan ini disusun berdasarkan lima Jabatan dan Agensi Kerajaan yang terdiri daripada Jabatan Pertanian (DOA), Jabatan Perkhidmatan Veterinar (DVS), Lembaga Pemasaran Pertanian Persekutuan (FAMA), Jabatan Perikanan (DOF) dan Lembaga Kemajuan Ikan Malaysia (LKIM). Maklumat ini disenaraikan mengikut kategori komoditi seperti produk pertanian dan diikuti dengan negara. Di samping itu, carta alir protokol setiap komoditi utama telah disediakan bagi memudahkan pengguna mendapatkan maklumat yang diperlukan dengan cepat dan mudah difahami.

## MUTIARA KATA

Assalamualaikum W.B.T dan Salam Sejahtera.

Terlebih dahulu, saya ingin merakamkan setinggi-tinggi penghargaan kepada Jabatan Perkhidmatan Kuarantin dan Pemeriksaan Malaysia (MAQIS) di atas usaha berterusan menyediakan khidmat nasihat yang komprehensif dalam menerbitkan buku **Indikator Import dan Eksport bagi Komoditi Pertanian 2019**.

Seperti sedia maklum, MAQIS merupakan sebuah badan penguatkuasa yang diberikan amanah untuk mengawal penyakit, perosak dan kawalan kualiti agro-makanan. MAQIS juga berperanan untuk melancarkan aktiviti import dan eksport serta memperkasakan kawalan komoditi pertanian negara. Justeru itu, buku panduan ini diperkenalkan di setiap pintu-pintu masuk MAQIS sama ada laluan darat, laluan udara mahupun laluan laut agar mampu menyokong operasi harian dalam mengawal selia pintu sempadan seterusnya membantu pemain industri serta pegawai-pegawai terlibat lebih memahami prosedur perdagangan yang perlu dipatuhi.

Akhir kata, saya berharap agar buku panduan ini akan terus menjadi tulang belakang kekuatan MAQIS dalam mempertingkatkan mutu perkhidmatannya serta menjadi buku rujukan utama kepada Jabatan, Agensi berkaitan serta negara-negara dagangan Malaysia demi memastikan sektor pertanian terus kekal mampan dan berkembang maju pada masa hadapan.

Sekian, terima kasih.

## PENDAHULUAN

Jabatan Perkhidmatan Kuarantin dan Pemeriksaan Malaysia (MAQIS) ditubuhkan di bawah Kementerian Pertanian dan Industri Asas Tani yang diiktiraf sebagai sebuah jabatan untuk menyediakan perkhidmatan bersepadu berkaitan kuarantin, pemeriksaan, dan penguatkuasaan di pintu masuk, stesen kuarantin, premis kuarantin dan pemerakuan bagi import dan eksport tumbuhan, haiwan, karkas, ikan, hasil keluaran pertanian, tanah dan mikroorganisma dan termasuk pemeriksaan dan penguatkuasaan yang berkaitan dengan makanan dan bagi perkara-perkara yang berkaitan dengannya.

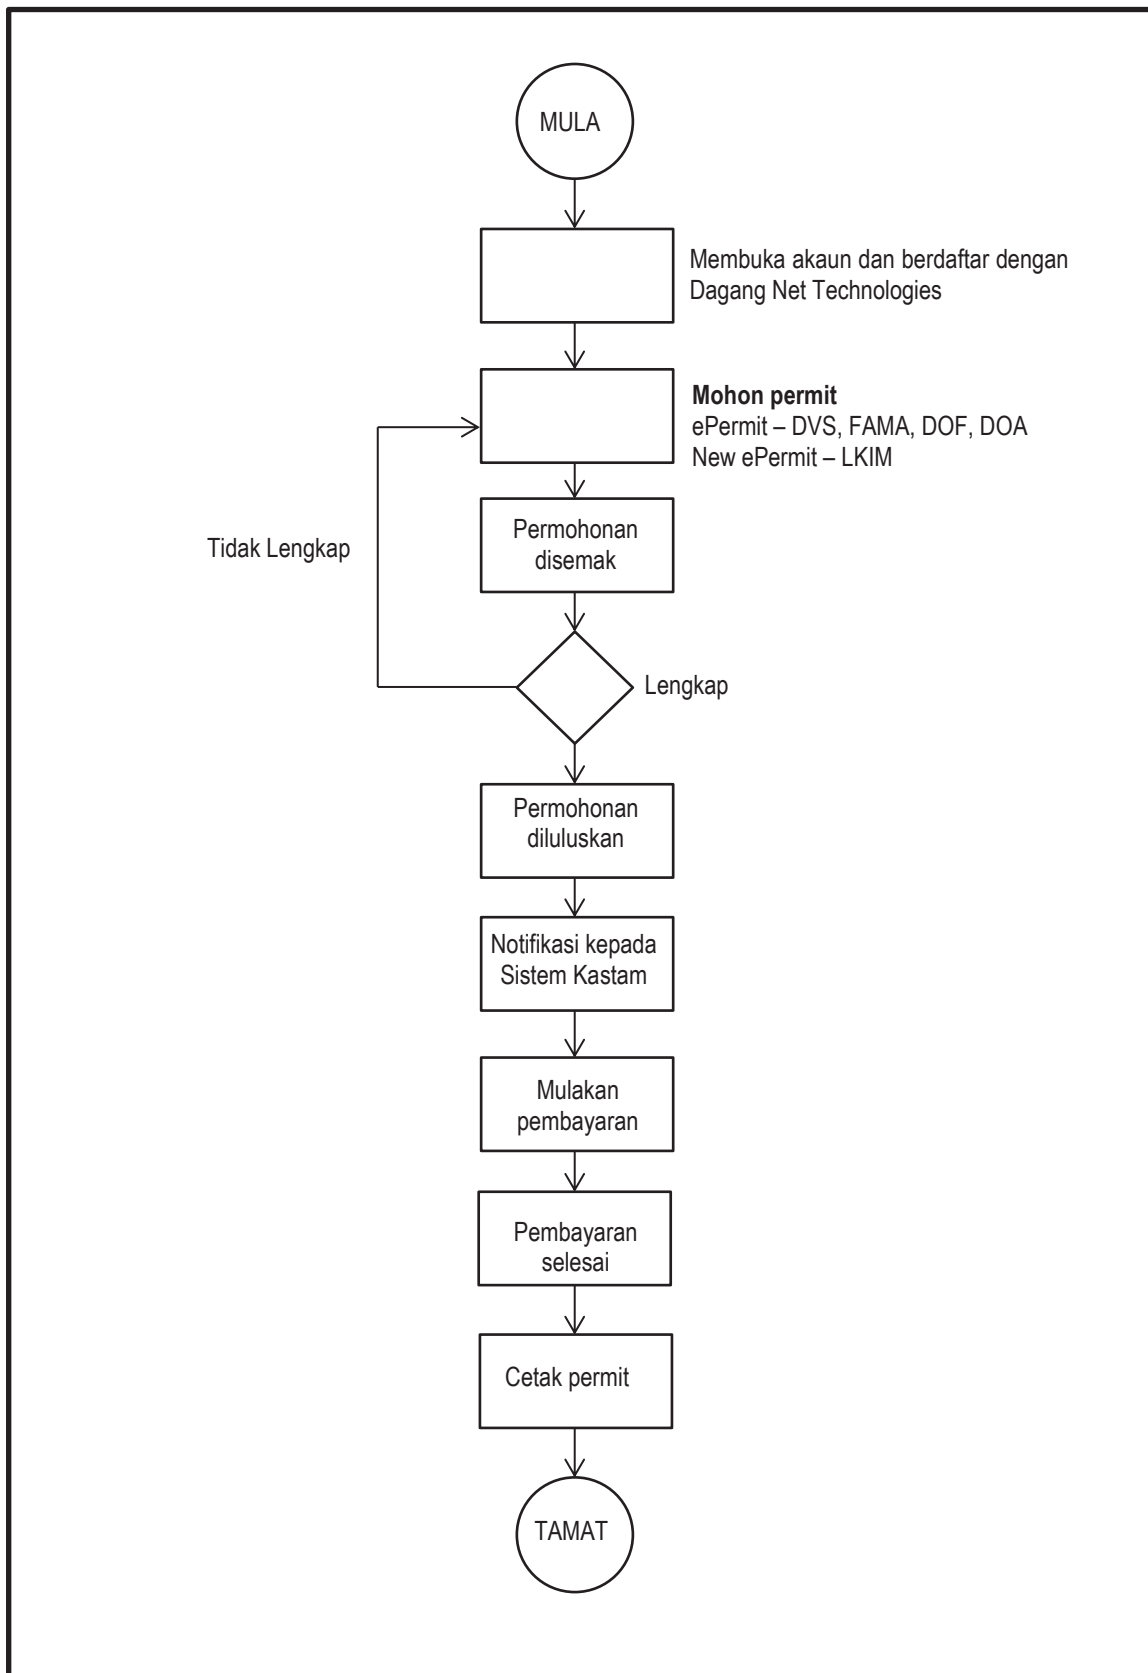

Memikul amanah yang diberikan, MAQIS bertekad untuk menjadi sebuah jabatan utama dalam kuarantin, perkhidmatan pemeriksaan dan penguatkuasaan bagi memastikan komoditi pertanian bebas daripada perosak, penyakit dan pencemaran selari dengan pematuhan kesihatan dan keselamatan. Selain itu, MAQIS juga bertanggungjawab untuk membantu pengimport dan pengeksport dalam isu-isu berkaitan dengan akses pasaran serta mematuhi kehendak negara pengimport. MAQIS akan memastikan komoditi pertanian yang diimport dan dieksport sentiasa selamat, bebas daripada perosak dan penyakit, bebas daripada pencemaran dan berkualiti untuk digunakan.

Dengan kuasa yang diberikan untuk menguruskan peraturan mengenai komoditi pertanian, MAQIS telah diberikan enam fungsi utama seperti yang dinyatakan di bawah: -

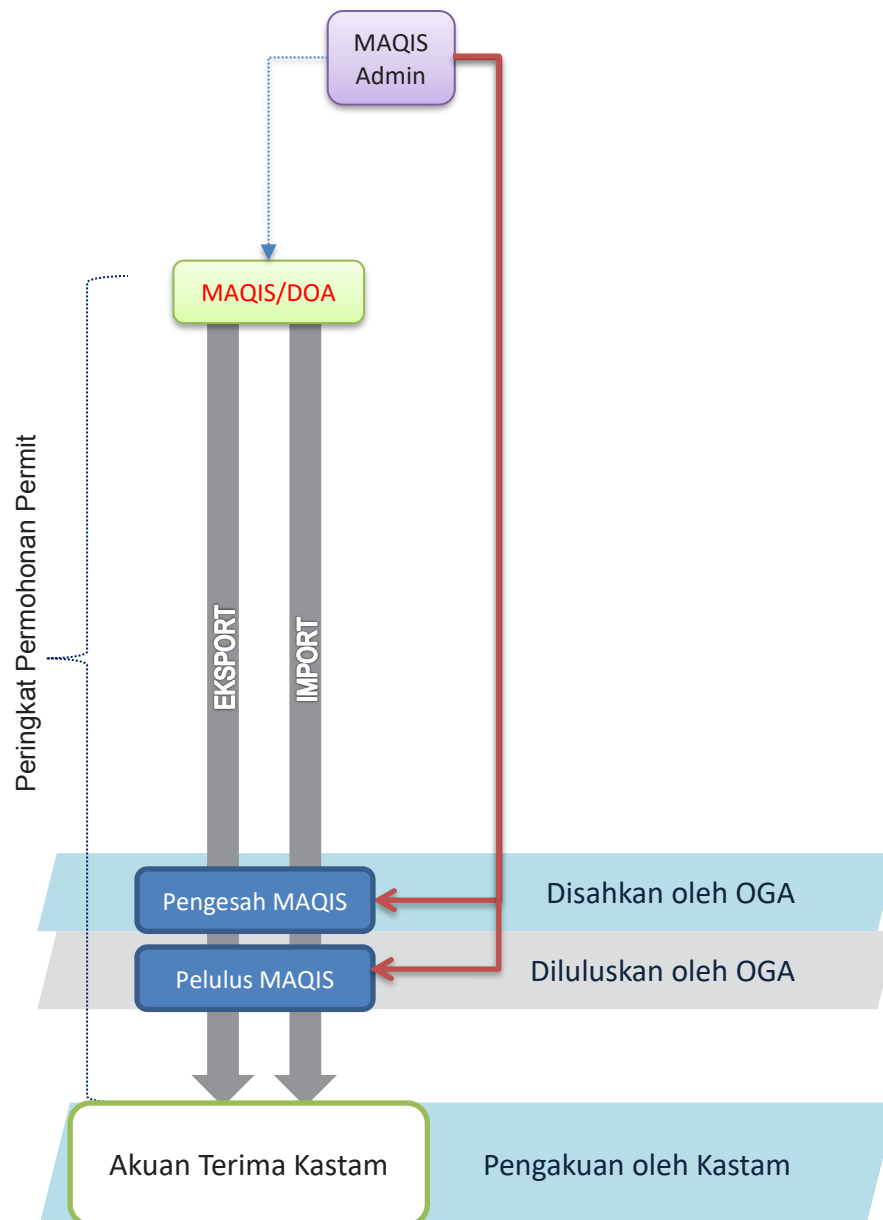

1. Menguatkuasakan semua undang-undang bertulis yang berkaitan di pintu masuk, stesen dan premis kuarantin untuk memastikan bahawa tumbuh-tumbuhan, haiwan, karkas, ikan, hasil pertanian, tanah, mikroorganisma dan makanan yang diimport dan dieksport keluar dari Malaysia mematuhi aspek kesihatan manusia, haiwan, tumbuh-tumbuhan dan ikan serta keselamatan makanan.
2. Mengeluarkan permit, lesen, dan perakuan untuk tujuan import dan eksport tumbuhan, haiwan, karkas, ikan, hasil keluaran pertanian, tanah, dan mikroorganisma.
3. Memastikan bahawa tumbuh-tumbuhan, haiwan, karkas, ikan, hasil keluaran pertanian, tanah, mikroorganisma dan makanan yang diimport dan dieksport dalam dan ke luar Malaysia digredkan, dibungkuskan dan dilabelkan mengikut undang-undang bertulis yang berkaitan.
4. Menubuhkan dan menguruskan stesen kuarantin.
5. Menyertai pemeriksaan dan pemerakuan premis negara pengeksport bersama dengan agensi dan jabatan yang berkaitan.
6. Mengambil bahagian bersama agensi atau jabatan yang berkaitan di peringkat antarabangsa dalam perkara yang berkaitan dengan kuarantin, import dan eksport tumbuhan, haiwan, karkas, ikan, hasil keluaran pertanian, tanah, mikroorganisma, dan makanan, jika perlu.

Oleh itu, ia adalah penting bagi MAQIS untuk menerbitkan buku panduan ini bagi memudahkan pengimport dan pengeksport di Malaysia mematuhi protokol semua negara yang terlibat di samping mematuhi Akta Perkhidmatan Kuarantin dan Pemeriksaan Malaysia 2011 (Akta 728).
