ProfRose Utm shared Universiti Teknologi Malaysia (UTM)'s post.
November 24 at 4:36pm ·

UTM Big Data Centre is organising "Professional Certificate in Data Science".

We welcome all enthusiastic practitioners or researchers from government and industries with non-IT or IT background; experienced or non-experience individuals/ students and for those who are interested in Data Science and Big Data "Data science – the extraction of knowledge from data at the field work, lab experiments, design of experiments (DOE) or other means contributing to data collection and gathering.

This involves many different kinds of data science skills – including non-mathematical skills to investigate the golden α-informatics accordingly."
