Profil Korporat

Corporate Profile

Sebelum tahun 1983, hak-hak harta intelek di Malaysia telah ditadbir oleh Pejabat Cap Dagangan dan Jaminhak. Pejabat ini kemudiannya telah ditukar namanya kepada Pejabat Cap Dagangan dan Paten dalam tahun 1983 dan telah diletakkan di bawah bidangkuasa Kementerian Perdagangan dan Perindustrian.

Pada 27 Oktober 1990, Kementerian telah membuat penyusunan semula dan seterusnya Pejabat ini telah diletakkan di bawah bidangkuasa Kementerian Perdagangan Dalam Negeri dan Hal Ehwal Pengguna (KPDNHEP) yang kini dikenali sebagai Kementerian Perdagangan Dalam Negeri, Koperasi dan Kepenggunaan (KPDNKK) telah ditukar nama kepada Bahagian Harta Intelek (BHI). Bahagian ini bertanggungjawab mentadbir Akta Paten 1983, Akta Cap Dagangan 1976, dan Akta Hakcipta 1987.

Akta Reka Bentuk Perindustrian 1996 telah mula dikuatkuasakan pada 1999, disusuli pada tahun 2000 dengan Akta Susun Atur Litar Bersepadu 2000. Seterusnya pada tahun 2001, Akta Petunjuk Geografi 2000 dikuatkuasakan.

Prior to 1983, intellectual property rights (IPR) in Malaysia were administered by Pejabat Cap Dagangan dan Jaminhak. The name was changed to Pejabat Cap Dagangan dan Paten in 1983 and was administered under the jurisdiction of the then Ministry of Trade and Industry.

On 27 October 1990, the Ministry was restructured and the Office was assigned under the Ministry of Domestic Trade and Consumer Affairs (MDTCA) which now is known as Ministry of Domestic Trade, Co-operative and Consumerism (MTDCC) and the Office then has changed its name to Intellectual Property Division. The Division was responsible to administer the following acts such as Patents Act 1983, Trade Marks Act 1976, and Copyright Act 1987.

The Industrial Designs Act 1996 came into force in year 1999, followed by the Layout-Designs of Integrated Circuits Act 2000 in year 2000. Later in 2001, the Geographical Indications Act 2000 came into force.

Dalam menghadapi perubahan pembangunan harta intelek di peringkat domestik dan global, BHI telah dijadikan sebuah badan berkanun pada 3 Mac 2003 dan dikenali sebagai Perbadanan Harta Intelek Malaysia (PHIM) melalui berkuatkuasanya Akta Perbadanan Harta Intelek Malaysia 2002.

Perbadanan telah mengambil langkah penjenamaan semula apabila singkatan PHIM ditukar kepada MyIPO pada 3 Mac 2005 sempena Pelancaran Hari Harta Intelek Negara yang pertama.

In anticipation to the development of intellectual property either locally or internationally, the Division was incorporated on 3 March 2003 and known as the Intellectual Property Corporation of Malaysia (PHIM), with the enforcement of the Intellectual Property Corporation of Malaysia Act 2002.

Intellectual Property Corporation of Malaysia took an important step in rebranding when the acronym PHIM has becoming MyIPO on 3 March 2005 at the launching of the first celebration of National Intellectual Property Day.

Perutusan Menteri

Minister's Foreword

Assalamualaikum

*Wahmatullahi Wabarakatuh
dan Salam 1 Malaysia*

MyIPO merupakan pemangkin kepada pembangunan harta intelek di negara ini yang memainkan peranan penting dalam mentadbir urus dan mengawal selia sistem perlindungan harta intelek. Sejak pengkorporatan MyIPO pada tahun 2003, kita dapat melihat pelbagai inisiatif baharu telah dilaksanakan bertujuan untuk memperkasakan ekosistem harta intelek di Malaysia.

Tahun 2014 telah menyaksikan pelancaran Portal IPR Marketplace telah mengubah lanskap harta intelek negara. Ia merupakan salah satu usaha untuk menjadikan harta intelek sebagai aset yang boleh didagangkan sebagaimana aset ketara yang lain.

YB Dato' Sri Hasan bin Malek

Menteri Perdagangan Dalam Negeri, Koperasi dan Kepenggunaan

Minister of Domestic Trade, Co-operatives and Consumerism

As the driving force of the nation's intellectual property development, MyIPO plays an important role in administering and regulating the intellectual property protection system. Since the incorporation of MyIPO in 2003, we have seen numerous new initiatives being implemented to strengthen the intellectual property ecosystem in Malaysia.

The recent launching of IPR Marketplace Portal in 2014 has changed the nation's intellectual property landscape. It was also one of the efforts to trade intellectual property as other tangible assets.

Saya bangga dengan langkah proaktif MyIPO yang telah membangunkan projek perintis Portal IPR Marketplace sebagai platform menghubungkan pemunya harta intelek dengan pembeli dan pelabur berpotensi. Inisiatif ini membuka peluang baharu kepada pemilik harta intelek dan usahawan tempatan untuk menyenaraikan harta intelek mereka dalam portal tersebut bagi tujuan diperdagangkan di peringkat tempatan dan antarabangsa.

Satu lagi inisiatif yang telah diambil oleh Kerajaan adalah untuk membangunkan Technology and Innovation Support Centers (TISC) dikenali sebagai "Patent Library" di beberapa universiti dan pusat penyelidikan tempatan yang terpilih di Malaysia. TISC akan beroperasi sebagai pusat pembangunan dan pengembangan maklumat harta intelek dan inovasi baharu yang bakal menjadi rujukan. Projek ini merupakan salah satu inisiatif yang terkandung dalam Pelan Tindakan ASEAN Mengenai Harta Intelek 2011-2015.

Bagi terus memberi kemudahan kepada stakeholders, MyIPO juga telah melancarkan projek perintis Patent Prosecution Highway (PPH) bersama Japan Patent Office (JPO) bermula pada 1 Oktober 2014. Program ini merupakan satu inisiatif untuk menyediakan prosedur pemeriksaan yang lebih efektif melalui perkongsian maklumat antara kedua-dua pejabat harta intelek.

Di peringkat serantau, Malaysia merupakan ahli kepada Kumpulan Kerja ASEAN mengenai Kerjasama Harta Intelek (AWGIPC) yang dianggotai oleh 10 negara ASEAN. Jawatankuasa kerja ini telah diberi mandat untuk merangka, menyelaraskan dan melaksanakan program dan aktiviti berkaitan hak harta intelek di rantau ini.

I am proud that MyIPO has taken a proactive step to develop IPR Marketplace Portal as a platform to link intellectual property owners with potential buyers and investors. This initiative provides new opportunities for intellectual property owners and local entrepreneurs to list their intellectual property assets in the portal for both national and international trade.

The Technology and Innovation Support Centers (TISC) known as "Patent Library" is an initiative that has been established by the Government at selected local universities and research centres. TISC will be operating as a reference centre for development and expansion of information on intellectual property and new innovations. This project is one of the initiatives implemented under the ASEAN Intellectual Property Rights Action Plan 2011-2015.

With effective from 1 October 2014, MyIPO has launched a pioneer project, the Patent Prosecution Highway (PPH) procedure in collaboration with Japan Patent Office (JPO) to facilitate the stakeholders. This programme is an initiative to provide an accelerated examination procedure through information sharing between both intellectual property offices.

Regionally, Malaysia is one of the 10 members of the ASEAN Working Group on Intellectual Property Cooperation (AWGIPC). The Working Committee has been given the mandate to plan, coordinate and implement Intellectual Property Right's programmes and activities in the region.

Malaysia memainkan peranan yang aktif dalam kumpulan kerja tersebut dan telah dipilih menjadi Lead Country untuk lima daripada 28 inisiatif yang digariskan di bawah lima matlamat strategik (Strategic Goals) yang terkandung di bawah Pelan Tindakan ASEAN mengenai Harta Intelek 2011-2015.

Lima inisiatif tersebut merangkumi penambahbaikan sistem penyampaian perkhidmatan cap dagangan, paten, reka bentuk perindustrian, petunjuk geografi dan hak cipta. Selain itu, Malaysia juga turut diberi tanggungjawab untuk membangunkan kurikulum latihan pegawai pemeriksa paten dan program kesedaran mengenai kepentingan perlindungan harta intelek di kalangan industri kecil dan sederhana (IKS) rantau ini.

Saya percaya MyIPO akan lebih berdaya maju dalam memenuhi perubahan global serta berupaya memacu kemajuan harta intelek di negara ini.

Terima kasih.

Malaysia also plays a very active role in that working group and has been appointed as a Lead Country for five of the 28 initiatives outlined under the five Strategic Goals in the ASEAN Action Plan on Intellectual Property 2011-2015.

The five initiatives include enhancement of the delivery system of trade marks, patents, industrial designs, geographical indications and copyright. In addition, Malaysia was also given the responsibility to develop a training curriculum for patent examiners and awareness programmes on the importance of intellectual property protection among small and medium enterprises (SME) in the region.

I believe that MyIPO will continue to be more progressive in keeping up with the global changes and for the betterment of intellectual property landscape.

Thank you.

Sistem ini juga dilengkapi dengan ciri-ciri keselamatan bagi menjamin keselamatan data semasa proses pemfailan iaitu menggunakan protokol Secure Sockets Layer (SSL) dan Digital ID. Protokol SSL menggunakan sistem enkripsi dan dekripsi bertujuan memastikan maklumat yang dihantar semasa pemfailan selamat dan tidak boleh diubah. Penggunaan Digital ID / Digital Signature menjamin kesahihan pengguna yang melakukan pemfailan dan maklumat yang dicapai atau dokumen yang dihantar semasa pemfailan adalah dari pengguna yang sah. Projek peningkatan ini akan siap sepenuhnya pada bulan Ogos 2015.

Projek peningkatan Sistem IP Online ini telah dilaksanakan dengan pertambahan komponen berikut:
